EXPERIENCE

Flutter Developer Freelance
Intelcia IT Solutions   📅 11/2024 - Present   📍 Hybrid

Development of government mobile applications, including:

- **Eparapheur:** Mobile companion to the E-Parapheur platform, enabling full digitization of mail processing within public administrations.
- **Rendez-vous:** Appointment scheduling application with calendar management features.
- **Chikaya:** Application for submitting and tracking complaints.
- **Bureau d'Ordre:** Application for managing incoming/outgoing correspondence with document traceability.

Tasks included:

- Integration of secure government APIs and data flow management.
- Design of user-friendly interfaces accessible to a broad audience, following usability standards.
- Collaboration with multidisciplinary teams to ensure compliance with regulatory requirements.

Flutter Developer Freelance
ELITECONNECT   📅 09/2023 - 11/2024   📍 Remote

- **Platform Development:** Designed and developed EliteConnect, an innovative sports recruitment platform.
- **User Profile Creation:** Implemented features allowing clubs, coaches, agents, and athletes to create detailed profiles.
- **UI Enhancements:** Improved the interface to provide a more user-friendly experience.

Flutter Developer
WEBCK   📅 06/2024 - 09/2024   📍 TechnoPark

- **API Integration:** Consumed APIs to develop a mobile business management application using Flutter.
- **Development Practices:** Applied best practices in Flutter development, including state management, layout constraints, and clean navigation architecture.
- **Testing Contribution:** Assisted in testing to ensure application quality and stability.
- **Feature Design:** Contributed to the design of new features to enhance the app's capabilities.

Flutter Developer
FREELANCER   📅 12/2022 - 09/2023   📍 Remote

- **API Integration:** Integrated RESTful APIs for communication between the mobile frontend and backend.
- **State Management:** Used GetX, Provider, and Riverpod for application state management.
- **App Deployment:** Developed and published two simple applications on the Google Play Store.
- **UI/UX Design:** Designed user interfaces with a focus on accessibility.
- **Performance Optimization:** Improved app performance by reducing loading times.
- **Version Control:** Managed code versions with Git for smooth feature integration.
- **Google Maps API Integration:** Worked with the Google Maps API to add geolocation features to the app.

Customs agent
ADII   📅 05/2021 - 05/2024

Developer intern
Az networking   📅 02/2021 - 05/2021   📍 Deroua

- Desktop Application Development

PROFILE

As a passionate mobile developer who studied at ISTICG, I quickly found my path in programming. I currently work as a freelance Flutter developer, allowing me to gain hands-on experience while meeting real client needs. My skills in mobile development continue to grow thanks to my curiosity, discipline, and constant desire to learn. I am ready to take on new challenges in a dynamic environment where I can leverage both my technical and interpersonal skills.

EDUCATION

📅 09/2018 - 06/2019   📍 Deroua

Baccalaureate in Physical Sciences
Hassan II High School

📅 09/2019 - 05/2021   📍 Berrechid

Specialized Technician in Software Development
Specialized Institute of Applied Technology
